> Demo: https://pot-it.herokuapp.com/

// EDUCATION

>> California State University, Los Angeles, CA B.S. COMPUTER SCIENCE | AUG 2018 - AUG 2020

- > Graduated Cum Laude
- > Dean's List for Fall 2018, Fall 2019, and Spring 2020
- > ETS Major Field Test Score: 170/200 (90th percentile)
- > GPA: 3.63

>> Glendale Community College, Glendale, CA TRANSFER STUDENT | AUG 2014 - JUNE 2018

// WORK EXPERIENCE

>> In-Home Support Services, Burbank, CA CARETAKER (PART-TIME) | SEPT 2016 - PRESENT

- > Assist client with feeding, bathing, grooming, as well as running daily errands.
- > Remain alert to client's health problems and competently respond.
- > Relevant key skills: patience and strong interpersonal, organizational, and time management skills.

>> QTC Medical Record Queuing System

DATABASE LEAD | AUG 2019 - MAY 2020

- > Collaborated with a team using Agile methodology to create a workflow ASP.NET MVC application that keeps track of large amounts of medical records for the company QTC.
- > My team improved QTC's work efficiency by replacing their manual record processing system with an automated queuing system that sorts medical records based on priority guidelines.
- > Created MySQL stored procedures to insert data into the database and also created the endpoints to call these stored procedures using C#.
- > Integrated the database to the UI using the *Entity Framework*, *HTML5*, *CSS3*, and *JavaScript*.

>> EatQuest

ANDROID DEVELOPER | FEB 2019 - MAY 2019

- > Collaborated with a team to create an *Android* app that provides users the nearest restaurants to their location that fit their selected criteria.
- > Implemented the app's ability to get and display the user's current location and display markers of the nearby restaurants surrounding the user's current location using Java and Google APIs for Android.
- > Developed the overall UI design of the app using *HTML5* and *CSS3*.
- > Code: https://github.com/DanTFree/Eat-Quest/
